Wichita Falls MSA	58,000	400	-100	-0.2

Highlights

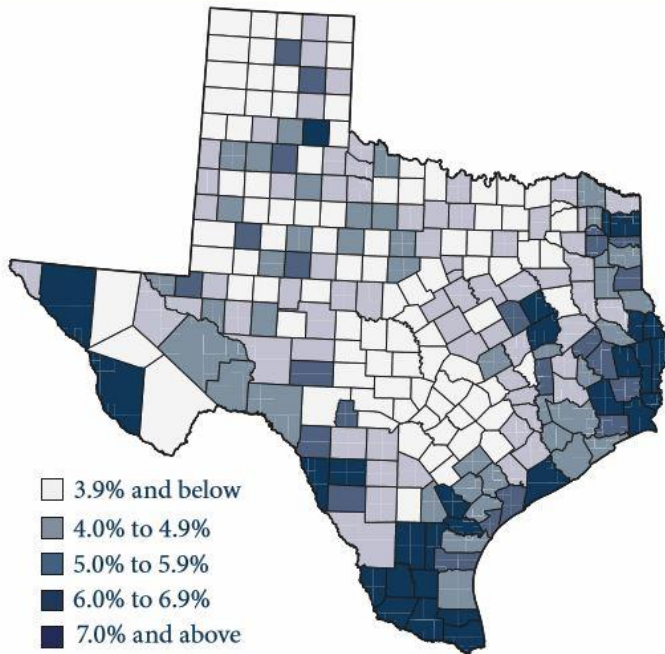

(MSA industry data are not seasonally adjusted)

- Seventeen of 26 areas grew in April for a combined increase of 22,700 jobs. Nineteen areas grew over the year, while seven areas contracted.
- The Houston-The Woodlands-Sugar Land MSA accounted for more than half of all area employment gains over the month. The MSA increased its annual growth rate to 1.5 percent.
- The San Angelo MSA grew fastest in percentage terms with a 0.8 percent April expansion. Per not seasonally adjusted industry data, Retail Trade and Other Services each added 200 jobs over the month, while Government was down 200 positions.
- The Dallas-Plano-Irving MD led in actual and percentage job growth annually. Professional and Business Services led all major industries with 21,000 positions gained, followed by Leisure and Hospitality with 10,900 jobs added.
- The Beaumont-PA and the Texarkana MSAs lost the most jobs annually. The loss of 2,100 jobs in Retail was primarily responsible for the contraction in the Beaumont-PA MSA, while employment losses in Texarkana were spread across industries.

Lubbock LAUS County-by-County Unemployment Rates

Why Summer Jobs Are Important

by Denise Brown Chron.com

A summer job teaches a teenager many skills.

High school students may want the freedom to do whatever they want, but often lack the funds to pay for it. Some rely on their parents to provide the money, but many parents realize that the teenage years are a good time for their children to earn their spending money and to learn money-management skills. Even after a young person goes to college, summer jobs continue to provide important life-skills training.

Spending Money

As a teenager earns money from their summer job, she has the choice of spending it on food and clothes they can use, or saving the money for college. Ideally, she should put some money into the college fund and also enjoy the thrill of spending some hard-earned cash any way she wants. As she goes from paycheck to paycheck, she begins to learn how to manage the money and ways to stretch it. She also learns what happens when she doesn't budget appropriately, especially if her parents don't advance her any money.

Business Skills

Colleges and future employers look for experience on resumes, and summer

jobs provide opportunities to expand basic work skills. No matter what type of summer job a teenager has, he is expected to be at work on time and to finish his assigned shift. Teenage workers also learn how to listen for directions so they can carry out work tasks properly. Jobs often require workers to improve their critical thinking and problem-solving skills. Young workers also learn how to handle constructive criticism.

Career Opportunities

A teenager may not know what career path he wants to follow. By trying a variety of part-time jobs during high school and college, he gets an inside look into careers without investing a lot of money. For example, if he is considering a career in sales, working in a retail store teaches him valuable job skills and provides insight on how sales affect the company's bottom line. He also gains experience working with a wide range of customers.

Networking

The young person learns how to develop positive relationships with a wide variety of personalities as she works on her daily tasks. Summer jobs provide a way for a young person to network with older, experienced business associates. A successful summer job may turn into a full-time job after the young person completes college or vocational training. Knowing someone who can help you find a job gives you an edge, especially in a tight job market.

Texas Ends 2016 with 210,200 Jobs Added Over the Year

State unemployment rate remains at 4.6 percent in December

AUSTIN – Texas has added an estimated 210,200 seasonally adjusted jobs since December 2015 with the addition of 800 nonfarm jobs this December. The state has added jobs in 20 of the past 21 months. Texas' seasonally adjusted unemployment rate maintained a 4.6 percent rate in December.
